

Always High Standards

With each passing day, the professional team of "Ana Stroy LLC" continues to add ambitious and significant new projects to its portfolio.

Always High Standarts

“
With each passing day, the professional team of “Ana Stroy LLC” continues to add ambitious and significant new projects to its portfolio.

Our company aims to provide its clients with high-quality technical solutions under all conditions. Our approach to quality and service ensures our continuous growth and success.

“Ana Stroy LLC” aims to offer quality and service to its clients at international standards. Our company evolves continuously in line with client needs and global opportunities. Our goal is to be a reliable business partner in the sector, to constantly improve the services we provide, and to

produce more efficient solutions.

Our activities cover production and assembly across various construction disciplines, including civil works, scaffolding, steel structures, and piping. **We provide services in major sectors such as petro-chemical, LNG and gas, mining, metallurgy, and power plants.** Thanks to our extensive organizational capability, we manage each project specifically to its needs and deliver reliable results.

Fields of Activity

With our experience across different sectors and our technical expertise, we offer integrated solutions in a wide range from engineering to construction, and from procurement to project management.

4

We operate in different countries.

10+

We source workers from different countries.

Our Global Presence

To ensure effective project coordination, in addition to our headquarters in Russia, we have regional offices in strategically important regions:

Turkey as a hub for the Middle East, Bulgaria for Europe, Uzbekistan for Asia, and India as our base for managing intensive mobilization processes across South Asia. This

network of offices forms the backbone of our global workforce strategy, enabling us to respond quickly and efficiently to the dynamic needs of international projects.

By spreading our workforce across a wide geography, we can assign highly qualified professionals to the specific requirements of each project.

Thanks to the strong mobilization capabilities of our human resources, we are able to operate in multiple countries. Our agility, professionalism, and commitment to quality in meeting the unique needs of each project enable us to act like a truly global company.

Global Operations Are Made Possible Through Strong Workforce Mobilization

Human Resources and Our Personnel Policy

Our qualified workforce, capable of participating in international projects, is supported by meticulously conducted recruitment processes and a strong field management approach.

Selective Recruitment

Professional Competency Tests

Expert Technical Staff

Cost and Risk Management

Global Workforce Management

SENIOR MANAGEMENT

With over 25 years of industry experience, this team provides both technical and organizational solutions for projects.

QUALITY CONTROL AND FIELD MANAGEMENT

In addition to engineers and inspectors who oversee the compliance of every stage of the projects with standards, there are experienced technicians and foremen who manage field efficiency.

QUALIFIED WORKFORCE

Technical excellence is aimed for with certified personnel capable of welding to international standards.

OHS TEAMS

Professional teams are in place that make the "zero accident" principle in occupational health and safety a standard, not just a goal.

COST MANAGEMENT

Thanks to our experienced personnel, we can estimate project needs and use the right amount of workforce.

Our Machinery and Equipment

We possess a diverse fleet of equipment and a comprehensive inventory of industry-specific devices; we meet the needs of all types of mechanical and construction work. Our readiness ensures rapid setup and uninterrupted support for projects of all sizes.

Construction Machinery

Heavy Equipment

Sectoral Devices

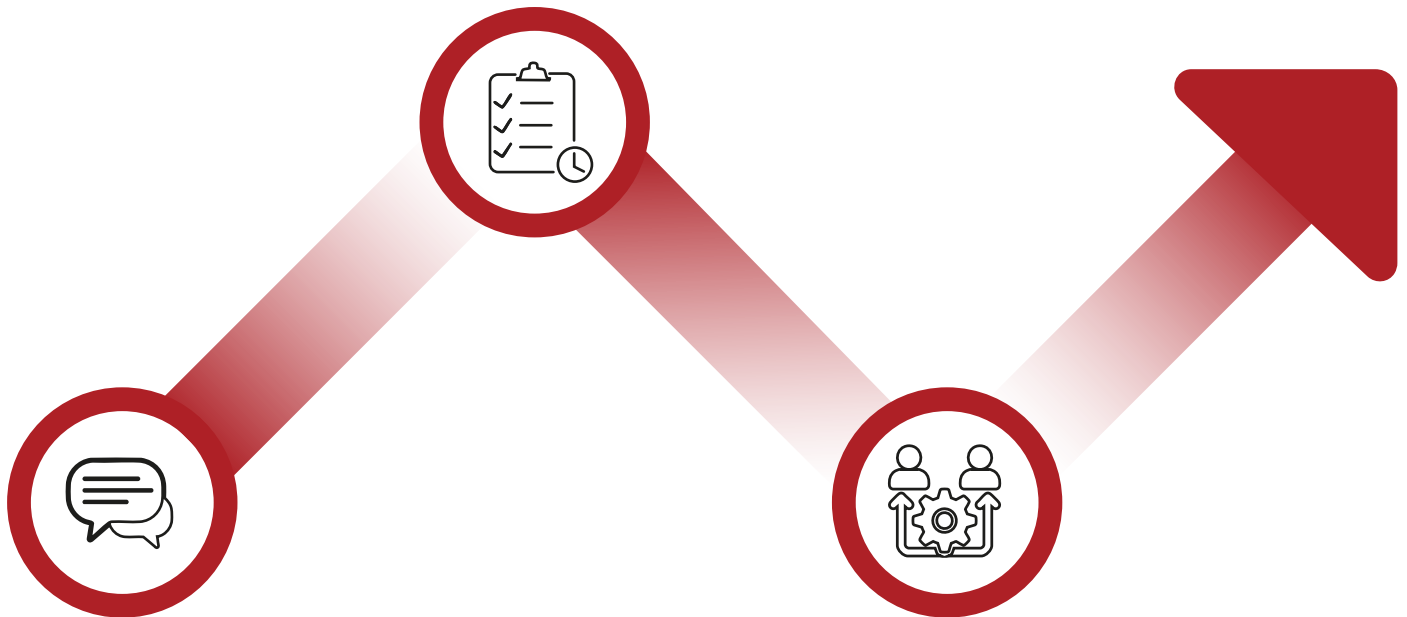

Quality Management System

Our mission is to maintain the highest level of quality in engineering, procurement, manufacturing, and project management through experienced and highly coordinated teams.

EVENT-BASED DECISION-MAKING

We ensure operational agility and risk reduction by making quick and effective decisions based on real-time events and project dynamics.

STRATEGIC APPROACH

We apply a strategic perspective in all our processes to ensure sustainable quality and continuous improvement.

PROCESS-ORIENTED

Our quality system is based on proven, standardized processes that ensure efficiency and consistency at all stages.

COMMUNICATION

CUSTOMER FOCUS

CONTINUOUS IMPROVEMENT

Completed Projects

Artic LNG 2

Large-Scale Gravity Based Structures

Location

Murmansk / Russia

Client

Novatek

Project Date

2020 - 2024

Total Man-Hours

6.000.000

Scope of Works

- Steel manufacturing and assembly works
- Pipe manufacturing and assembly works
- Painting and Insulation works
- All types of scaffolding works

Krondesk Modular Manufacturing

Location

Murmansk / Russia

Client

SAREN

Project Date

2023 - 2024

Total Man-Hours

200.000

Scope of Works

Steel manufacturing and pre-assembly works
Pipe manufacturing and pre-assembly works
All types of scaffolding works

Amur GPP

Large-Scale Gas Processing Plant

Location

Svobodny / Russia

Client

Gazprom

Project Date

2018 - 2021

Total Man-Hours

5.000.000

Scope of Works

Steel structure assembly works
Pipe assembly works
Pipe and equipment
insulation works
All types of scaffolding works

Ust - Luga GPP

Large-Scale Gas Processing Plant

Location
Ust-Luga / Russia

Client
Gazprom

Project Date
2024 - 2025

Total Man-Hours
155.000

Scope of Works

- Steel structure assembly works
- Pipe assembly works
- Pipe and equipment insulation works
- All types of scaffolding works

Moscow Refinery

Sulphur Production Unit

Location

Moscow
Russia

Client

Gazprom

Project Date

2022
2023

Scope of Works

Mechanical Assembly Works
Construction Scaffolding Works
(Installation, Dismantling, Revision)

Total Man Hours

220.000

Udokan GMK

Russia's Largest Copper Mining And Metallurgical Plant

Location

Udokan / Russia

Client

Gazprom

Project Date

2021 - 2023

Total Man-Hours

300.000

Scope of Works

Steel structure
assembly works
Pipe assembly works
Pipe and equipment
insulation works
All types of scaffolding
works

Location
Murmansk / Russia

Client
JSC Apatit

Project Date
2022

Total Man-Hours
750.000

Scope of Works
Ground and foundation works
Structural and finishing construction works
Installation steel structures
Piping works
Insulation works
Landscaping works

Russian Academy

Kolascientific Center

Istanbul Airport

Europe's Largest Airport Project

Location
Istanbul
Turkey

Client
İGA

Project Date
2016
2019

Scope of Works

Electrical and Mechanical
Installation
Construction Scaffolding
(Material, Installation,
Dismantling, Revision)

**Total
Man/Hours**
300.000

Akkuyu Nuclear Power Plant

The World's Largest Nuclear Construction Site

Location
Mersin / Turkey

Client
ICTAS

Project Date
2014 - 2019

Total Man-Hours
200.000

Scope of Works
All types of scaffolding works

SASA Polyester

Purified Terephthalic Acid Production Plant Project

Location

Adana / Turkey

Client

SASA Polyester A.Ş.

Project Date

2024 - 2025

Total Man-Hours

183.000

Scope of Works

Pipe assembly works

Can-II Power Plant

Lignite Power Plant With 340 MW Capacity

Location

Çanakkale / Turkey

Client

ODAŞ

Project Date

2014 – 2018

Total Man-Hours

3.000.000

Scope of Works

Installation of the flue gas desulfurization (FGD) pipeline and pump components

Yenikoy Kemerkey Power Plant

Industrial Reconstruction

Location

Istanbul
Turkey

Client

Limak Enerji

Project Date

2019

Scope of Works

Reconstruction metal
structures, equipment and
electromechanical works
Supply and installation of
construction scaffolding

Total Man/Hours

1.000.000

Baku Power Plant

Waste to Energy Power Plant With 37MW Capacity

Location

Bakü / Azərbaycan

Client

CNIM SA

Project Date

2010 - 2012

Total Man-Hours

1.100.000

Scope of Works

Boilers and auxillary equipment installation

All mechanical assembly works

Pipeline works

Nizhnekamsk Power Station

Combined Cycle Power Plant
With Capacity of 495 MW

Location
Nijnekamsk
Tataristan/Russia

Client
ENKA

Project Date
2020

Total Man/Hours
200.000

Berezovskaya Power Plant

Coal Power Plant With Capacity of 800 MW

Location

Krasnoyarsk
Russia

Client

Unipro
(E.ON Russia)

Project Date

2012 – 2014

Scope of Works

Boilers and auxiliary
equipment installation
All mechanical assembly works
Pipeline works
Other equipment related works
